Period for Reply -- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Claims 1, 3, 6-11 and 14-18 are presented for examination.

The remarks filed on April 28, 2008 have been received and entered.

Claims 1-18 are rejected under 35 U.S.C. 103 (a) as being unpatentable over Ornstein (US Patent 5,527,810) in view of Dreyer (US 5,597,809) for the reasons set forth on pages 2-4 of the office action of December 28, 2007.

Applicant's arguments and remarks have been carefully considered, but are not deemed to be persuasive. Applicant refers to Wikipedia for the definition of retinopathy as some non-inflammatory damage to the retina of the eye. However, such source also teaches that there are different causes for retinopathy, which diabetes is identified as one cause, and the end result is diabetic retinopathy. Therefore, diabetic retinopathy is encompassed by the general term of retinopathy. Furthermore, even if diabetic retinopathy was a totally different condition than retinopathy, there is no evidence of record to show that different types of retinopathy can be treated differently. Applicant's arguments regarding the Dreyer reference have been noted. Applicant in his remarks argues that the specification lists close to hundred compounds that fit within the genus of NMDA antagonists. Applicant is reminded that although Dreyer lists numerous compounds having NMDA antagonist activity, but memantine is a compound which has been claimed by such document. For the above reasons the prior rejection sustains.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
